NOTICE OF REPRESENTATION

FILED  
U.S. BANKRUPTCY COURT  
S.D. N.Y.  
APR 12 2021

Dear Honorable R.D. Drain:

I am communicating with the Court to state on the record that on April 4, 2021, I did forward a communication to counsel ARK PEIS for the purpose of objecting to the Disclosure Statement filed by the debtors and to further declare representation of the above entitled matter by proxy by the law office of ALVIN GUMP STRAUSS HAMER & FELD, LLP, ONE BRYANT PARK, New York, New York 10036.

As I am still suffering the effects of pain (both physical and mental) I object to the disclosure statement and rely on counsel for complete, fair and just resolution on my behalf.

Sincerely,  
Kelvin X. Singleton

Subj: CASE No. 12712 & 56925

DEAR ARIK REIS:

I am the above named creditor/claimant in the above-claimed numbers. I write to you this date to formally object to the Disclosure Statement I received on this date from Prime Clerk (Doc 2494). As a Person in a California State Prison, I am representing myself in this cause and understand through a letter I recently received from Phareah Puerdue, L.P. that you represent "collectively" the unrepresented creditors. Because I received the Notice of Disclosure Statement Hearing today, my objective is to contact you and assure you that I object to the debtor's statement and would ask that all information I need be forwarded to my person at your convenience.\*

I understand that I came to prison to deal with an addiction of cocaine (crack), with no knowledge of opioids or heroin. As I was diagnosed with this blood cancer, I was fed opioids from Oxycotin to Vicodin to morphine, never telling me how addicted I could become. To this day I am still

suffering from the years of being addicted to this substance. Although I've not lost employment, my marriage was lost and I still suffer pain from the addiction and relapses.

In conclusion, thank you for your time, I ask for acknowledgement you received this letter and much success for your law firm!

Sincerely,

Kevin X. [Signature]
